Experience

MINDMATRIX, Android App Development using Generative AI Intern

Feb 2026 – May 2026

- Built the **Namma-Skill Android application** using **Kotlin, Jetpack Compose, Firebase, and MVVM**, enabling secure user authentication and efficient data management.
- Designed and developed features such as course discovery, application tracking, favorites, and admin management, applying best practices in UI development, testing, debugging, and version control with GitHub.

Education

K. S. School of Engineering and Management

B.E – Computer Science & Engineering (CGPA: 8.4)

2026

Sri Krishna PU College

PUC (Science – PCMC) – 77%

2022

Shantiniketan Public School

SSLC (10th Grade) – 70%

2020

Technical Skills

Programming: C, Java, Python

Web Technologies: HTML, CSS, JavaScript, Flask, Django

Databases: SQL, MongoDB

Data Analysis & Visualization: Excel, Power BI, Tableau, Pandas, NumPy, Matplotlib, Seaborn

Tools & Platforms: GitHub, Postman, Ganache

Concepts: REST APIs, Smart Contracts, Blockchain Basics

Projects

Blockchain-Based Identity Verification System (Major Project)

Secure decentralized identity validation platform

- Developed a Blockchain-Based Identity Verification System using Smart Contracts, IPFS, SHA-256, Ganache, and Postman to enable secure, decentralized, and tamper-proof identity validation.
- **Technologies:** Blockchain, IPFS, Smart Contracts, SHA-256, Postman, Ganache

Invoice Extraction using Gemini API

AI-powered invoice data extraction system

- Developed an AI-powered Invoice Extraction System using Python, Flask, and Gemini API to automate invoice data extraction and processing through REST APIs, improving accuracy and workflow efficiency.
- **Technologies:** Python, Flask, Gemini API, REST API

Zomato UI Clone

Responsive food delivery web interface

- Developed a **responsive Zomato UI Clone** using HTML, CSS, and JavaScript, delivering an intuitive and user-friendly food ordering interface across multiple devices.
- **Technologies:** HTML, CSS, JavaScript, Flask

Certifications

- **Web Application Development – PyGenic Arc**
- **Java Concepts – Infosys Springboard**
- **Fundamentals of Python – Infosys**

Key Achievements

- **Academic:** Secured 3rd Prize in the PyGenic Arc Frontend Development Contest for designing and developing an innovative web application using modern front-end technologies for project Zomato UI Clone.
- Served as a **Video Editor**, creating and editing promotional and event videos while collaborating with teams to deliver high-quality digital content.
